The **ASR** stainless steel single door wall-mounted enclosure range offers IP 66 protection and comes in various sizes. It prevents water and dust entry, reducing component failure and downtime. Ideal for food, beverage, and pharmaceutical industries, it suits most environments.

- **Material:** AISI 304L / 316L stainless steel.
- **Body:** 1.5 mm, folded and seam welded.
- **Door:** 1.5 mm (304L) or 2 mm (316L), 130° opening, with concealed hinges.
- **Sealing:** Polyurethane (304L) or silicone (316L) gasket.
- **Lock:** Customized zamak double-bit 3 mm lock, with anti-vibration mechanism.
- **Mounting Plate:** 2 mm galvanized steel, adjustable depth.
- **Protection:** IP 66 | TYPE 4X, 12 | IK 10.
- **Finish:** 400 pre-grained stainless steel.
- **Delivery:** Includes door, mounting plate, key, and accessories.

_____

The **ADR** double door wall-mounted stainless steel enclosure range offers IP 55 protection and is ideal for confined spaces. It prevents water and dust entry, reducing component failure and downtime. Suitable for food, beverage, and pharmaceutical industries, it fits most environments.

- **Material**: AISI 304L / 316L stainless steel.
- **Body**: 1.5 mm, folded and seam welded.
- **Door**: 2 mm, 130° opening, with concealed hinges.
- **Sealing**: Polyurethane (304L) or silicone (316L) gasket.
- **Lock**: Customized zamak double-bit 3 mm lock, with anti-vibration mechanism.
- **Mounting Plate**: 2.5 mm galvanized steel, adjustable depth.
- **Protection**: IP 55 | TYPE 12 | IK 10.
- **Finish**: 400 pre-grained stainless steel.
- **Delivery**: Includes door, mounting plate, key, and accessories.
